We are the Exclusive Representative for North America offering High Performance, Resilient & AWWA Butterfly, Knife Gate, V-Port & Rotary Control, Eccentric Plug, Air-Release/Vacuum & Engineered Solutions for Industrial Applications.

Cameron's WKM® Floating & Trunnion Ball Valves satisfy a Wide Range of ANSI and API 6D Applications. Engineered for heavy-duty, reduced-maintenance performance & manufactured in a variety of body and seal materials.

Cast, Machined, Assembled & Tested in S. Korea Industrial & Oil/Gas Ball Valve Featuring: Floating & Trunnion API 6D Designs in Sizes ½" through 48", Class 150 thru 2500. Available in Carbon, Stainless Steel & Special Alloys.

CVS Controls manufactures Control Valves and associated instrumentation products to specification that facilitate the direct replacement with FISHER* process control equipment.

Made-in-USA - Problem Solving, In-Line, Axial Flow, Nozzle Style Silent Check Valves w/ materials ranging from Cast Iron to Exotic Alloys and pressures through Class 2500.

German Manufacturer of Innovative Flow Control Valves including: Sliding Gate, Angle Seat Globe, Diaphragm, Right Angle Sanitary/Aseptic, Pinch, Self-Regulating Pressure Control Valves, Hi-Temp, Cryogenic, Electric or Pneumatic Actuated.

Sharktooth Control Valves combine High Performance Butterfly Valves w/ 'Throttling Trim Cartridge' to increase to 100:1 Rangeability, 15dBA Noise Attenuation & Reduced Cavitation

World-Leading Range of Cast & Forged Steel Gate, Globe, Check, Ball, Triple-Offset Butterfly, Dual-Plate Wafer Checks & Severe Service Valves.

Cameron's NEWCO® cast steel gate, globe, check & ball valves exceed all industry design requirements. Range from 2" to 54" in Classes 150 to 1500.

Advanced Engineering Valve: Unique Double-Eccentric Friction-Free Ball Valves used in Cryogenic LNG & Gas Processing, Mole Sieve Switching, Turbo Expander NGL Recovery, High-Solids Services, & Modulating Applications. **N. TX & OK only**

Quadrosphere Ball Valves offer a unique contoured ball design with 70% less wear and lower torques. Used in Power, Refining, Oil & Gas, Petrochemical and more. **TX and OK only**

Made-in-USA ASME Section VIII Soft Seated Safety Relief Valves. Designs include Spring & Pilot-Operated for Liquids, Gases & Multi-Phase services. Used for Pressure, Vacuum, Cryogenic, Liquid Surge & Un-Loader Valves.

High quality ball valves ranging from standard commercial type Ball Valves to high-pressure metal seated Control Valves including Carbon, Stainless Steel & Alloy 20.

High quality Sampling Valves for numerous industrial applications in refining, chemical, petrochemical, oil/gas, mining, pulp & paper

Rotork Controls Electric Actuators. Multi-Turn & Quarter Turn Electric Actuators & Electric Control Valve Actuators. Specialize in Non-Intrusive Actuator Housing for all Area Classifications.

Rotork Fluid Systems manufactures Pneumatic and Hydraulic Actuators, Scotch Yoke, Rack & Pinion, and Linear. Also offers Electro-Hydraulic for electric fail safe applications.

A Rotork company offering Pneumatic High Performance Vane Actuators. Designed for Modulating & High cycle quarter turn Valve & Damper applications.

316SS & Ductile-Iron Pneumatic Actuators including: Rack & Gear, Flat-Yoke and Piston Style Designed for Corrosive Environments & High Cycles/Speeds.

Solenoid Valves

Limit Switches

Positioners

Accessories

Filtration/Strainers

Manufacturer of Automatic Self Cleaning Filtration, Bag and Cartridge Filtration, Fabricated Pipeline Strainers, Gas Liquid Separators, Standard Pipeline Strainers

Titan FCI manufactures a wide variety of industrial check valves, pipeline strainers & pump protection products. Titan's capabilities even extend to complex fabricated products, custom design units, and specialty screens.

Custom Automated Packages

Your Valve Automation Specialists!
